INDUSTRY BENEFITS

DIGITAL SIGNAGE MADE EASY
Integrate Cybercast visual solutions into your retail chain and shopping centres to enhance your customer shopping experience and brand loyalty. Maximise exposure by promoting targeted items with unmissable content through displays. Keep your customers informed and entertained.

**VISUALLY INFORM YOUR CLIENTS**
Control your whole network and monitor performance via a web browser from a central remote location.

Perfect for one location or scale up to any number of locations. And keeping your brand image consistent across all communication touch points.

**CUT YOUR COSTS SIGNIFICANTLY AND REDUCE YOUR CARBON FOOTPRINT**
Forget about leaflets, expensive message boards, outdated paper-based solutions, delivery delays and courier cost.

**INCREASE PRODUCT AND SERVICE EXPOSURE**
Feature hot items, combos, and specials. Suggest relevant discounts, special offers with vivid images and animation right in front of your customers in a timely manner.

**IMPROVE YOUR STORE IMAGE AND SHOWCASE YOUR BRAND**
Create eye-catching content and menu board specials with vivid images, social media feeds, reviews, and customer-oriented content for indoor and outdoor spaces. Use interactive displays to capture valuable data and create better customer engagement; feedback forms, market surveys, run competitions and loyalty programs.

Deploy Cybercast digital signage solutions for healthcare to enhance patient experience and improve vital communication with time poor medical staff. Keep your patients and staff informed with urgent and time-sensitive updates.

**IMPROVE YOUR OPERATIONAL EFFECTIVENESS**
Easily digitalise every part of your staff/patient/visitor communication touch points. Everything from smart thermal detection terminals to screens broadcasting compliance and emergency messages.

Secure, stable, and easy-to-use – Give the staff full control on scheduling messages to a patient’s dedicated screen reminding them of exercises to do and upcoming check-ups. Perfect for internal communications in staff rooms and breakout rooms.

Staff is always on the move which makes digital signage the perfect solution to target and communicate work health and safety messages, rosters, policies, staff events and productivity messages.

**CUT YOUR COSTS SIGNIFICANTLY AND REDUCE YOUR CARBON FOOTPRINT**
Forget about leaflets, expensive message boards, and outdated paper-based solutions and miscommunication issues. Feel the benefits of digital signage in healthcare today and save your facility budget.

**INCREASE THE PATIENT’S COMFORT**
Better manage staff and patient communication experience. Install signs, displays across the halls and rooms with bulletin updates, wayfinding, social activities or simply engage them with entertainment.

Provide patients with valuable and relevant information at all times. Because content can be easily updated and rotated, multilingual messages can be interspersed, bringing another level of comfort to patients of all cultural backgrounds.

**ENHANCE AND IMPROVE YOUR BRAND AWARENESS AND REPUTATION**
Create dynamic and compelling visual displays throughout every part of your facility, from entrance and reception, to hallways and cafeterias, to residential bedrooms and staff rooms.

Easily make visually engaging content with eye-catching images, videos and easily customise content.
Build an effective and simple visual network to improve corporate communication and the overall office experience.

Increase engagement within separate departments, branches, and companies. Effortlessly integrate digital signage solutions at any scale and into an unlimited number of offices. Easily update and edit your content on-the-fly with maximum security.

**VISUALLY INFORM YOUR CLIENTS**
Provide them with valuable and relevant information like directions/maps, updates, important events (corporate meetings, stand-up’s, birthdays, and celebrations). Also broadcast compliance and emergency messages.

**VISUALLY INFORM THE PUBLIC**
Install Cybercast screens inside the public transport, bus stops and heavy traffic gathering places with announcements, FAQ, and interactive feedback forms. Provide them with valuable and relevant information like a timetable, local updates, wayfinding, compliance and emergency messages.

Cybercast digital signage is the perfect tool to communicate quickly and efficiently to the masses during an emergency by using our one touch ‘Panic Campaign’ feature.

**CUT YOUR COSTS SIGNIFICANTLY AND REDUCE YOUR CARBON FOOTPRINT**
Forget about leaflets in the lobby, expensive message boards, and outdated paper-based solutions for corporate communications.

**IMPROVE THE OVERALL OFFICE EXPERIENCE**
Feature motivating content and new career opportunities within your organisation. Encourage your employees with motivating videos and dynamic content showcasing the office community’s life.

**GROW YOUR INTERNAL COMMUNICATIONS NETWORK AND IMPROVE ENGAGEMENT**
Create eye-catching content with visuals, newsfeeds and employee-oriented content using digital signage software for office and outdoor spaces.
